Smile Choices made simple!

Always thought about changing your smile but worried that it might be too painful, costly and time consuming? You may be surprised!

There are many simple treatments that are pain free and effective in creating your perfect smile!

The Hidden Straighten Simple alterations to your smile that create the wow factor! Celebrities such as Cheryl Cole, Holly Willoughby, Chris Evans and HRH Kate Middleton are reported to have opted for this pain free treatment. Ask your dentist about Clearstep, Invisalign and Inman aligner.

The Smile Contour

This has been one of our most popular treatments with patients. The treatment involves tooth whitening followed by in chair composite contouring and no anaesthetic required. These simple changes give patients a whole new smile confidence.

The Black to White

Your teeth will look like new...no one will ever know you had a filling! One of the biggest advancement in dentistry is in the area of composite filling materials and Cerec porcelain restorations. Change your smile by saying goodbye to your old NHS metal fillings and replace them with a natural looking smile!

The Diamond Polish

The simplest of all treatments is a visit to the hygienist. Staining is a common problem with patients, especially in tea and coffee drinkers, smokers and in those who drink red wine! The hygienist uses an Airflow cleaner to pick up all traces of the staining, after a full polish your teeth sparkle like new.
